### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 1, 10, and 15 and their dependent claims are allowable because claims 1, 10, and 15 specifically require a monitoring valve for setting the minimum pressure of the pressure medium led to a second actuator, percussion apparatus, under the influence of a reference pressure from a reference pressure channel. Claim 2 and its dependent claims are allowable because claim 2 specifically requires first and second chambers defined by the sleeve and a second pressure channel connected to the second chamber. U.S. Patents 4967791, 4431020, and 5826613, either alone or in combination, fail to teach or suggest the monitoring valve as claimed in claim 2, lacking the features described above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
